Profhilo

Profhilo is not a volumising dermal filler nor is Mesotherapy. It sits between skin boosters and fillers as a super skin booster. Not only does Profhilo offers fantastic hydration but also triggers collagen and elastin production, resulting in bio-remodeling of the skin.

Effects will last for 6 months and multiple treatments may be required.

Two treatments are recommended to prolong the effect, taken 1 month apart. However for patients who are 60yrs+, it may be recommended that you have 3 sessions of Profhilo taken a month apart.

One area	£300
Two areas	£550
Three areas	£800
